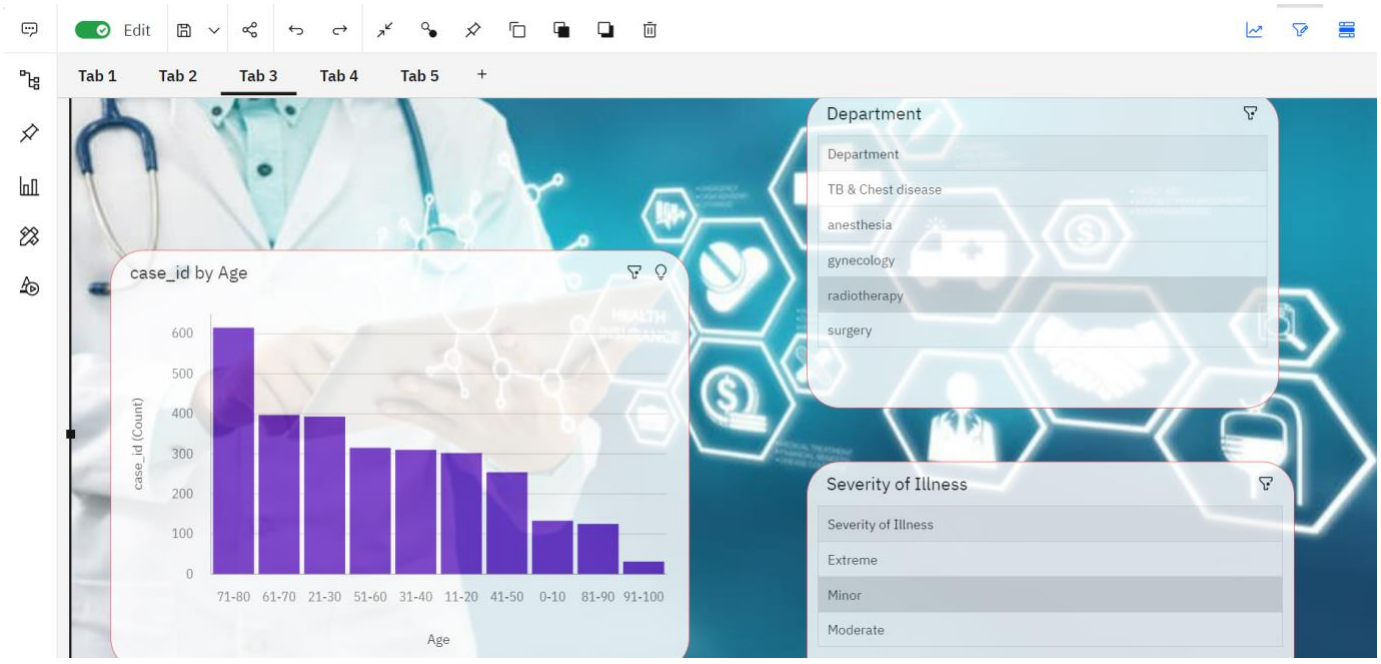
SPRINT -III

Team ID	PNT2022TMID33955
Project Name	Analytics For Hospitals Health Care-Data

DASHBOARD:

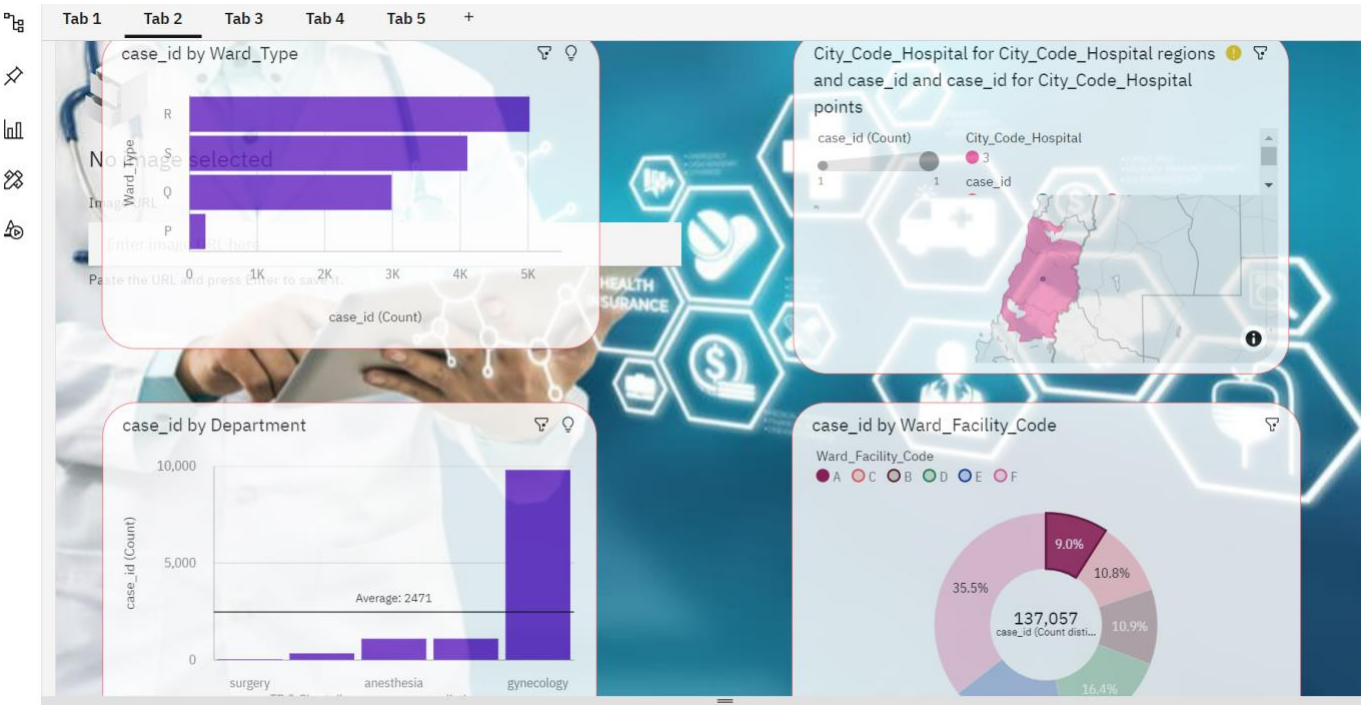
Dashboards are a collection of widgets that give you an overview of the reports and metrics you care about most. Dashboards let you monitor many metrics at once, so you can quickly check the health of your accounts or see correlations between different reports. Dashboards are easy to create, customize and share.



A Health care we can view the Department in a Age by just clicking any of the Department from the Department list (radiotherapy) also the Severity of Illness also be viewed for the same.

A Health care we can view the Department in a Age by just clicking any of the Severity of Illness in Extreme orders from the Severity of Illness pie chart.

A Data Scientist can click the patient Id for Department (gynecology) to view the available extra rooms in the Hospitals also the Severity of Illness and Age covered by Department also be viewed for the same.



By just clicking the ward facility code in Pie chart we can view the Ward type and Department and Hospitals region.
